ONE STORE MEDICAL - API DOCUMENTATION

onemedical.store

Version	Date	Author	Description
1.1	09-05-2024	Rasi K P	Initial draft

Users :

1. Add Product :   base_url /addproduct

Add Product in woo commerce website using database

Method	URL
POST	/addproduct

```
WooCommerce.post('products', wooProductData, (err, data, res) => {
    if (err) {
      console.error(`Error adding product with id ${product.id}:`, err);
    } else {
      console.log(`Product added with id ${product.id}`);
    }
  });
```

wooProductsData contain all which parameter and data inserted into corresponding field

Eg: name, type, regulare_price, description, short_description, images, etc
More : https://woocommerce.github.io/woocommerce-rest-api-docs/?javascript#create-a-product
